GIACOMINI S.p.A.

Giacomini A7 Adjustable Fog Nozzle

Premium adjustable brass fog nozzle engineered for fire service, marine, and industrial protection networks. Allows operators to easily adjust water flow from complete shut-off to a solid straight stream or a wide fog curtain for heat shielding and maximum extinguishing effectiveness.

UL Listed

FM Approved

KEY SPECIFICATIONS

Product type	Adjustable Fog Nozzle
Model / Series	A7
Size range	1-1/2" and 2-1/2"
Thread options	NST / NH, NPSH, or BSP
Pressure rating	Up to 175 PSI (12 bar)
Pattern range	Shut-off → Straight Stream → 120° Wide Fog
Body material	Cast Brass / Bronze
Bumper material	Elastomeric Rubber (optional)
Operating pressure	Up to 175 PSI (12 bar)
Connection sizes	1-1/2" NST/NH, 2-1/2" NST/NH
Certifications	UL Listed, FM Approved
Key features	Smooth twist operation, adjustable flow pattern, excellent water dispersion for gas/heat cooling, durable construction suitable for harsh marine and chemical environments

FEATURES

- Adjustable from shut-off to straight stream to wide fog
- High-quality cast brass/bronze construction
- Smooth and reliable twist operation
- Excellent water dispersion for heat shielding and gas cooling
- Corrosion-resistant and durable for marine and industrial environments
- Available with or without protective rubber bumper
- UL Listed and FM Approved for fire service use

APPLICATIONS

- Fire fighting and fire protection systems
- Marine and offshore applications
- Industrial hazard protection
- Petrochemical and chemical facilities
- Aircraft hangars and fuel storage areas
- Municipal and utility installations
- Any application requiring adjustable water discharge patterns for fire control and heat cooling
